Payment in full is due with registration and there is a non-refundable cancellation fee of \$50. There will be no refunds given within 2 weeks (14 calendar days) of the course.

Great Lakes Seminars reserves the right to cancel the course due to unforeseen/unavoidable circumstances. In the event of a cancellation, Great Lakes Seminars will not be responsible for any charges incurred by the registrant other than the course cost.

Instructors

Amy M. Yorke, PT, PHD
 Amy has been a physical therapist since 1993. She graduated from the University of Michigan-Flint with a master's degree in physical therapy and from Western Michigan University with a PhD in Interdisciplinary Health Sciences. She is Board Certified in Neurologic Physical Therapy. Amy has taught topics related to neurologic rehabilitation, including vestibular rehabilitation, for 20 years. She is currently on faculty at the University of Michigan-Flint and maintains an active practice through HEART, a pro bono clinic at UM-Flint.

Michelle Cornwell, PT

Michelle is a physical therapist with advanced certifications in Vestibular Rehabilitation, earning her foundational degrees from Northern Arizona University. With over 25 years of experience across inpatient and outpatient settings, she specializes in treating vestibular disorders and has taught courses nationwide for PTs and OTs. Michelle emphasizes patient education and an integrated, practical approach to care. She lives in Mesa, Arizona with her family and enjoys exercising, baking, and spending time with loved ones.

- 75% Hands-On Training**
Practice new techniques with confidence
- Passionate Instructors**
Learn from specialized instructors who truly care
- The GLS Experience**
Be part of a fun weekend that will fly by

An Introduction to Vestibular Rehabilitation

Course Description

Therapists often have scattered pieces of knowledge about vestibular rehabilitation. This course will help you put those puzzle pieces together in a way that enables you to quickly assess and provide treatment for a patient with vestibular dysfunction. We'll start with the comprehensive anatomy and physiology of the vestibular system then practice different diagnostic tests to assess vestibular dysfunction and guide your treatment. BPPV is covered at great length in this course, from diagnosis to treatment. Concepts will apply to clinicians without any vestibular rehabilitation experience, while still maintaining the interest and expanding the capabilities of more experienced clinicians!

As with all our manual therapy courses, this course is at least 75% hands-on lab, and will give you skills you can use immediately upon returning to the clinic!

Course Objectives

- Describe six key components of the anatomy and physiology of the vestibular system
- Discriminate between ten common pathophysiologic conditions of the vestibular system
- Complete a thorough interview of a patient and hypothesize three potential diagnoses using five key questions outlined in the manual
- Hypothesize the differential diagnosis of a mock patient who presents with vertigo versus dizziness
- Complete a thorough examination of a patient, and compare three subjective complaints to the objective findings

Course Outline:

Saturday

- 7:30am - Doors Open
- 8:00am - Lecture: Anatomy and Physiology of the Vestibular System
- 9:45am - Lecture: Diagnosis of Benign Paroxysmal Positional Vertigo (BPPV)
- 10:15am - Lab: Diagnostic Maneuvers for BPPV
- 12:00pm - Lunch (on your own)
- 1:00pm - Lab: Treatment of BPPV
- 2:30pm - Lecture: Pathophysiology of Common Vestibular Disorders
- 3:15pm - Lecture: Taking a History
- 3:45pm - Lab: Oculomotor Exam
- 4:45pm - Questions and Review
- 5:30pm - Adjourn

Sunday

- 7:30am - Breakfast
- 8:00am - Lab: Review of Day 1
- 8:30am - Lab: Speed Drills: Oculomotor Exam and BPPV
- 9:30am - Lecture: Quantified Tests of Vestibular Function
- 10:00am - Lab: Standardized Assessment Tools
- 11:00am - Lab: Psychological Manifestations of Dizziness
- 11:45am - Lecture: Treatment Theory
- 12:00pm - Lunch (on your own)
- 1:30pm - Lecture: Treatment Intervention
- 3:00pm - Lab: Case Preparation and Presentations
- 4:30pm - Lab: Questions, Review and Post-Test
- 5:00pm - Adjourn

Continuing Education

This course has been submitted for 16.5 continuing education hours in the state in which each course is held. Approval amounts may vary per state. Certificates of attendance with the number of course hours will be given to each participant at the completion of the course.
